
----- Insert a macro directly on the clipboard and paste the SWF file. Then the selected flash file will be exported to a file with the same name, with the extension.swf. The macro is stored in the Keymacro variable. -Displays information about the selected flash file. -Allows the creation of a new file when pressing a button. -Allows searching for a SWF file. -Allows saving selected SWF files in a predefined directory. -Allows opening a selected SWF file in a predefined viewer/editor. -Allows editing the Keymacro. -Allows to add or remove macros with the button "New Macro" or "Remove Macro". -Allows to filter macros with the button "Filter Macros". FlashSee does not allow to modify the contents of the Flash files. The SWF files, the image files and the audio files inside the flash files are untouched. Only certain actions (copy, paste, save) may be carried out. Please install latest version of FlashSee 1. Install FlashSee, double click FlashSee.exe and click the link in the notification window 2. If you have already installed FlashDigger, please uninstall it. 3. Run FlashSee a) Type flash, if a menu opens, select "SWF File and FlashDigger" b) Type flash, if a menu opens, select "Default" c) Select FlashSe d) click OK To install FlashDigger, please follow the installation guide The installation of flashsee may need the whole installation of FlashDigger, please follow the installation guide of FlashDigger. **Download FlashSee for Windows, Java & Mac OS X** Click the link below for FlashSee 5.5.0.3. *** FlashSee License Agreement Read the license agreement before using FlashSee. Click the link below for the License Agreement *** **Bug reports Please report all bugs to me at support@undead.org If you report bugs, please include the file F:flashsee.log in your e-mail. *** **Note** If you want to get the source code of Flash 70238732e0

Provides an easy way to create and execute custom JADX macros. For more details:
***** Latest update: Added a Windows CMD version C:\Program Files\Jadx>java -jar jadx.jar -cmd C:\Program Files\Jadx> Related Posts Comment (1) nice job COPY & PASTE Feb 22nd 2018, 18:22 PM [Oct 2, 2019][Update] I found that Windows already has a JADX file. I am using this on Windows 10 and when I copied the JADX file to the C:\Program Files\Android\Android Studio\bin folder, Android Studio will detect this and create JADX files for you.e r ?
